Types of data collected

Among the types of personal data that this application collects, by itself or through third parties, there are: cookie and usage data. Other personal data collected may be described in other sections of this privacy policy or by dedicated explanation text contextually with the data collection.

The personal data may be freely provided by the user, or collected automatically when using this application. Any use of cookies - or of other tracking tools - by this application or by the owners of third party services used by this application, unless stated otherwise, serves to identify users and remember their preferences, for the sole purpose of providing the service required by the user. Failure to provide certain personal data may make it impossible for this application to provide its services. The user assumes responsibility for the personal data of third parties published or shared through this application and declares to have the right to communicate or broadcast them, thus relieving the developer of all responsibility.

Mode and place of processing the data

Methods of processing

The developer processes the data of users in a proper manner and shall take appropriate security measures to prevent unauthorized access, disclosure, modification, or unauthorized

destruction of the data. The data processing is carried out using computers and/or IT enabled tools, following organizational procedures and modes strictly related to the purposes indicated. In addition to the developer, in some cases, the data may be accessible to certain types of persons in charge, involved with the operation of the site (administration, sales, marketing, legal, system administration) or external parties (such as third party technical service providers, mail carriers, hosting providers, IT companies, communications agencies) appointed, if necessary, as data processors by the owner.

Place

The data is processed at the developer's operating offices and in any other places where the parties involved with the processing are located. For further information, please contact the developer.

Retention time

The data is kept for the time necessary to provide the service requested by the user, or stated by the purposes outlined in this document, and the user can always request that the developer suspend or remove the data.

The use of the collected data

The data concerning the user is collected to allow the application to provide its services, as well as for the following purposes: Access to third party services' accounts, creation of the user in app profile, content commenting and Interaction with external social networks and platforms.

The camera (use of android.permission.CAMERA) is used if the user wants:

- Upload photo/video to supply content to the app;
- Update the profile picture;
- Scan QR Codes (no picture is taken in this case, and no data is sent over the network).

This application may ask some Facebook permissions allowing it to perform actions with the user's Facebook account and to retrieve information, including personal data, from it. For more information about the following permissions, refer to the Facebook permissions documentation (<https://developers.facebook.com/docs/authentication/permissions/>) and to the Facebook privacy policy (<https://www.facebook.com/about/privacy/>).

The rights of users

Users have the right, at any time, to know whether their personal data has been stored and can consult the developer to learn about their contents and origin, to verify their accuracy or to ask for them to be supplemented, cancelled, updated or corrected, or for their transformation into anonymous format or to block any data held in violation of the law, as well as to oppose their treatment for any and all legitimate reasons. Requests should be sent to the developer at the contact information set out above.
